

SWIMMING POOL WATER FILLING

Congratulations on your new swimming pool!

If your property is located in an area serviced by the Cecil Township Municipal Authority and are being billed for wastewater treatment charges, you may wish to consider the following:

Our wastewater charge is based on the water consumption used including water not going into the sanitary system, which of course, includes filling a swimming pool. In order to qualify for any refund on these charges, please consider the following:

1. An application must be completed and received in our office with a payment of \$25.00, prior to any water entering the swimming pool.
2. We require a 24-hour notice so that an appointment can be scheduled to take the necessary meter reading.
3. Meter readings must be taken by our staff prior to the start of filling a swimming pool and again after the pool has been filled.
4. Following the second meter reading, we will calculate the value of the water used for filling the pool and a check will be issued to you for that amount.
5. Our company checks are issued at the monthly board of directors meeting.
6. The water used will be billed on your PA-American Water Company statement and payment should be made to the water company.
7. If you do not comply with the above, **we will not be in a position to issue any kind of refund once the pool is filled.**
8. If you have any questions please call our office.
